LAKELAND CITY COMMISSION

Regular Session
May 5, 2025

The Lakeland City Commission met in Regular Session in the City Commission Chamber. Mayor Bill Mutz and Commissioners Chad McLeod, Bill Read, Stephanie Madden, Sara Roberts McCarley, Mike Musick, and Guy LaLonde were present. City Manager Shawn Sherrouse, City Attorney Palmer Davis, Finance Director Mike Brossart, and City Clerk Kelly Koos were present.

CALL TO ORDER - 9:00 A.M.

PRESENTATIONS

Annual LRH System Update (Danielle Drummond, President/CEO, Lakeland Regional Health)

Beautification Awards (Beth Sherling)
- Residential: Jeremy Evanchesky - 4722 Hulse Lane
- Commercial: Bright Ice - 1200 South Florida Avenue

PROCLAMATIONS
- Historic Preservation Month
- Mental Health Awareness Month
- Motorcycle Safety Awareness Month
- National Water Safety Month
- National Safe Boating Week

REQEUSTS TO APPEAR FROM THE PUBLIC – None

APPROVAL OF CONSENT AGENDA
All items listed with an asterisk (*) are considered routine by the City Commission and will be enacted by one motion following an opportunity for public comment. There will be no separate discussion of these items unless a City Commissioner or Citizen so requests, in which event the item will be removed from the consent agenda and considered in its normal sequence. For items listed with an asterisk (*) under the Community Redevelopment Agency portion of the agenda, the City Commission shall be deemed to be acting in its capacity as the Community Redevelopment Agency of the City of Lakeland when approving the consent agenda.

Motion: Commissioner Mike Musick moved to approve the Consent Agenda. Commissioner Sara Roberts McCarley seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience.

Action: Mayor Bill Mutz called for the vote and the motion carried unanimously.

APPROVAL OF MINUTES (with any amendments)

*City Commission Minutes – April 18-22, 2025

Action: The Commission approved this item as part of the Consent Agenda.

REPORTS AND RELATED ITEMS - None

EQUALIZATION HEARINGS

Recess/Convene: The Commission recessed the Regular Session and convened as the Equalization Board.

Palmer Davis explained that the City Charter requires that prior to recording a lien against private property, the City Commission convene as the Equalization Board and grant those property owners the opportunity to object to the recording of the lien or ask any questions they might have. If someone present received a notice to appear before the City Commission regarding a lot cleaning/clearing or demolition assessment, this is the time to address the Commission.

Lots Cleaning and Clearing

Motion: Commissioner Mike Musick moved to approve the assessments. Commissioner Chad McLeod seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments.

Action: Mayor Bill Mutz called for the vote and the motion carried unanimously.

Adjourn/Reconvene: The Equalization Board adjourned and the City Commission reconvened in Regular Session.

PUBLIC HEARINGS

Ordinances (Second Reading) - None

Resolutions

Resolution 5989; Proposed 25-028; Lots Cleaning and Clearing

A RESOLUTION RELATING TO ASSESSMENTS; DETERMINING THE NECESSITY FOR HAVING CLEANED AND CLEARED CERTAIN PROPERTIES WITHIN THE CITY OF LAKELAND; PROVIDING FOR THE ASSESSMENT OF LIENS AGAINST SUCH

PROPERTY FOR EXPENSES INCURRED IN THE CLEANING AND CLEARING THEREOF; PROVIDING AN EFFECTIVE DATE.

Palmer Davis read the title.

Motion: Commissioner Chad McLeod moved to approve the resolution. Commissioner Bill Read seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments.

Action: Upon roll call vote Commissioners Guy LaLonde, Mike Musick, Sara Roberts McCarley, Stephanie Madden, Bill Read, Chad McLeod, and Mayor Bill Mutz voted aye. Ayes-seven. Nays-zero. The motion carried unanimously.

Resolution 5990; Proposed 25-029; Authorizing the Execution of a Grant Agreement with the Florida Department of Transportation for Financial Project No. 456610-1-94-01 to Provide Funding for Light Towers at Lakeland Linder International Airport

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF LAKELAND, FLORIDA AUTHORIZING EXECUTION OF A GRANT AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION TO PROVIDE FUNDING FOR LIGHT TOWERS AT LAKELAND LINDER INTERNATIONAL AIRPORT; ADOPTING FINDINGS; PROVIDING AN EFFECTIVE DATE.

Palmer Davis read the title.

Motion: Commissioner Mike Musick moved to approve the resolution. Commissioner Chad McLeod seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments.

Action: Upon roll call vote Commissioners Chad McLeod, Bill Read, Stephanie Madden, Sara Roberts McCarley, Mike Musick, Guy LaLonde, and Mayor Bill Mutz voted aye. Ayes – seven. Nays – zero. The motion carried unanimously.

Resolution 5991; Proposed 25-030; Authorizing the Execution of a Grant Agreement with the Florida Department of Transportation for Financial Project No. 453423-1-94-01 to Provide Funding for Pedestrian Safety Improvements at Lakeland Linder International Airport

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF LAKELAND, FLORIDA AUTHORIZING EXECUTION OF A GRANT AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION TO PROVIDE FUNDING FOR PEDESTRIAN

SAFETY IMPROVEMENTS AT LAKELAND LINDER INTERNATIONAL AIRPORT; ADOPTING FINDINGS; PROVIDING AN EFFECTIVE DATE.

Palmer Davis read the title.

Motion: Commissioner Bill Read moved to approve the resolution. Commissioner Mike Musick seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments.

Action: Upon roll call vote Commissioners Guy LaLonde, Mike Musick, Sara Roberts McCarley, Stephanie Madden, Bill Read, Chad McLeod, and Mayor Bill Mutz voted aye. Ayes-seven. Nays-zero. The motion carried unanimously.

Resolution 5992; Proposed 25-031; Renaming of Webster Park to "Nellie Madalynne Brooks Park"

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF LAKELAND, FLORIDA RENAMING WEBSTER PARK AS "NELLIE MADALYNNE BROOKS PARK"; MAKING FINDINGS; PROVIDING AN EFFECTIVE DATE.

Palmer Davis read the title.

Motion: Commissioner Bill Read moved to approve the resolution. Commissioner Sara Roberts McCarley seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments from the Commission.

Mr. Roy Tyler came forward to support the renaming of the park. He would like to participate in the finances for the plaque.

Action: Upon roll call vote Commissioners Chad McLeod, Bill Read, Stephanie Madden, Sara Roberts McCarley, Mike Musick, Guy LaLonde, and Mayor Bill Mutz voted aye. Ayes – seven. Nays – zero. The motion carried unanimously.

Miscellaneous

Application to Construct a New Dock at 987 Lake Hollingsworth Drive

Jason Nix, LLC, on behalf of property owner Trey Johnson, has filed an application with the City to construct a new dock at 987 Lake Hollingsworth Drive.

Pursuant to Section 6.4.2.1 of the City's Land Development Code, Lake Hollingsworth is classified as a Protected Lakeshore. Lake Hollingsworth is further designated a

Parkway Lake by LDC Section 6.4.3.2.b. Since the proposed dock exceeds the limits of a Standard Water Access Structure under the LDC (the length exceeds 50’ over water), the structure is considered an Extraordinary Water Access Structure. Extraordinary Water Access Structures on Parkway Lakes, as outlined in Subsection 6.4.3.4.e. of the LDC, require City Commission review and approval at a public hearing before a building permit is issued. A site plan and cross-section have been provided by the applicant and is included in the agenda packet.

The proposed dock, as shown on the site plan, would project approximately 58’ over the water from the shore of Lake Hollingsworth. The total footprint of the proposed dock totals 296 square feet and has a 4' x 50' walkway leading to a 96 square foot (8' x 12') deck. The walkway includes a 2” x 6” handrail. The dock will have support legs every 10 feet. There are no issues with the proposed dock regarding setbacks or lot coverage.

Both the Lakes and Stormwater Division and Community Development Department have reviewed the application and have no objections. Notice letters have been mailed to property owners within 250 feet of the proposed dock and no objections have been received.

Staff recommended that the City Commission approve the construction of the proposed dock at 987 Lake Hollingsworth Drive in accordance with the plans and specifications set forth in the applicant’s permit application to the City (BLD25-01739)

Palmer Davis presented this item. There have been no public objections.

Motion: Commissioner Mike Musick moved to approve the recommendation. Commissioner Stephanie Madden seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments from the audience.

Lakes and Stormwater Manager Laurie Smith explained there are several docks on Lake Hollingsworth of this size. The water is shallow near the shore so docks need to be longer to access open water with a boat. This was not an abnormal size. It is the homeowner’s responsibility to manage vegetation along their shoreline. The City would prefer they leave the native vegetation to prevent erosion.

Palmer Davis explained Florida Fish & Wildlife and the Department of Environmental Protection would issue permits for that type of work on Lake Hollingsworth.

Action: Mayor Bill Mutz called for the vote and the motion carried unanimously.

COMMUNITY REDEVELOPMENT AGENCY - None

CITY MANAGER

Approval of Task Authorization WSP-25-01 with WSP for the Crystal Lake EutroSORB(r)G Sediment Treatment Project

The Florida Department of Environmental Protection (FDEP) identified Crystal Lake as an “impaired surface water body” due to high nutrient levels exceeding regulatory surface water quality Numeric Nutrient Criteria (NNC). In 2018, FDEP approved the Crystal Lake Nutrient Reduction Plan, which requires reducing nutrients in Crystal Lake. Based on previous studies completed by WSP, sediment phosphorus flux represents approximately 90% of the total phosphorus load to Crystal Lake. Reducing phosphorus flux is critical to improving water quality because phosphorus is the primary nutrient limiting algal growth within the lake. Inactivation of sediment phosphorus using chemical amendments is the most cost-effective means of reducing nutrient loads and achieving compliance with the regulatory NNC and delisting Crystal Lake from Verified Impaired Surface Waters list. A feasibility study conducted on lake bottom sediments revealed EutroSORB®G was an effective treatment product.

WSP provided a proposal for a lake wide application of EutroSORB®G aimed at improving water clarity, reducing water column phosphorus concentration, and inactivating sediment phosphorus within Crystal Lake. The treatment is intended to reduce algal growth, increase water clarity and light transmission, and stimulate the growth of beneficial aquatic plants that will further improve water quality conditions. The scope of work for this sediment treatment project includes:

- Project management, permit preapplication meeting with FDEP, and contractor oversight
- Environmental resource permitting
- Pre-application and post-application surface water field monitoring, water sample collection and laboratory analysis
- EutroSORB®G application
- Final report summarizing the treatment operation and pre- and post-application water quality conditions

WSP is a current firm on the June 2022 Professional Lakes & Watershed Management Services CCNA. They have provided assessment and feasibility consulting services on lakes in Lakeland since 2012 and on Crystal Lake since 2015. They subcontracted with Eutrofix to provide the EutroSorb G Sediment Treatment application. Eutrofix is considered a sole source in the industry.

Funding for this project in the not-to-exceed amount of $267,813 is provided in the Fiscal Year 2025 Crystal Lake TMDL line item of the Stormwater Capital Improvement Plan.

Staff recommends the City Commission authorize the appropriate City officials to execute the Task Authorization WSP-25-01 with WSP for the Crystal Lake EutroSORB®G Sediment Treatment Project in the not-to-exceed amount of $267,813.

Shawn Sherrouse presented this item.

Motion: Commissioner Chad McLeod moved to approve the recommendation. Commissioner Bill Read seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments.

Action: Mayor Bill Mutz called for the vote and the motion carried unanimously.

Purchase Order to R2 Unified Technologies for Public Safety Virtual Server Infrastructure

The City of Lakeland received a proposal from R2 Unified Technologies for the purchase of hardware and related software to replace Public Safety's virtual server infrastructure. This purchase will equip the Public Safety and disaster recovery datacenter with the computing and storage (server platform) capacity necessary to run Public Safety's Production and Testing Software Systems for the next five (5) years.

The total estimated cost of the proposed solution for the five (5) years is $416,623.59 which is included in DoIT's FY25 budget. This is a savings of over $60,000.00 versus the previous solution while providing additional capacity for future growth.

The City's Purchasing Division has approved R2 Unified Technologies pursuant to NCPA/OMNIA Contract # 01-96, as a piggyback.

Staff recommended the City Commission authorize the issuance of a Purchase Order to R2 Unified Technologies in the amount of $416,623.59 for the renewal of Public Safety's virtual server infrastructure and authorize the appropriate City officials to execute the appropriate documents.

Shawn Sherrouse presented this item.

Motion: Commissioner Bill Read moved to approve the recommendation. Commissioner Stephanie Madden seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments.

Action: Mayor Bill Mutz called for the vote and the motion carried unanimously.

Verbal Report

Shawn Sherrouse received a nice email from Cody and Chrissy Kesslinger, owners of the Kesslinger building. They had a backup in their entire building affecting all the tenants. They called and spoke to Katrina McCormick who was so polite and helpful. Jonathan Turbeville went out and found an unconventional solution.
Great Job by both Katrina and Jonathan!

CITY ATTORNEY

Ordinances (First Reading)

Proposed 25-010; Amending Article II of Division II of the Charter of the City of Lakeland, Florida to Redesignate the Position of Retirement Services Director to Retirement Services Manager

The foregoing is the title of an ordinance read for the first time by short title only. The Commission will hold the second reading and public hearing on May 19, 2025.

Mayor Bill Mutz clarified that his was strictly a title and reporting responsibility. It did not impact the pension board's function. They will continue to function in the same manner.

Commissioner Bill Read has received several calls and there are concerns. Anytime we deal with people's money and savings, it is critical. He is glad they will have the opportunity to speak at the next meeting.

Commissioner Stephanie Madden asked to see a table of organization at the next meeting.

Shawn Sherrouse explained this was simply an internal change as a cost savings. This is not changing the services being provided. He had a slide prepared for the public hearing to show the alignment. This is a simple reporting change. The change in the classification will change the comparable in the market. It does not affect the pay of the current occupant.

Miscellaneous

Agreement with Wright-Pierce, Inc. for Resident Project Representative Services for the Western Trunk Sewer Project

This proposed Agreement with Wright-Pierce, Inc. was for Resident Project Representative Services for the Western Trunk Sewer Upgrades Project. The Western Trunk wastewater line conveys a significant portion of the wastewater flows from the west side of the City’s wastewater service area to the Glendale Wastewater Reclamation Facility. The wastewater trunk main is at capacity and requires a significant upgrade to support growth in the area.

Water Utilities has retained Garney Construction through a progressive design-build contract to install 9,000 feet of 42-inch gravity sewer main, 21 manholes, 3,500 feet of 24-inch pressurized force main, and a new 3.5 million gallon per day (MGD) lift station. The City’s Purchasing Division recently issued Request for Qualifications (RFQ) 2025-RFQ-006 in accordance with the Consultants’ Competitive Negotiation Act (CCNA) to select an engineering firm to provide construction engineering and inspection (CEI) services and resident project representative (RPR) services. The City Commission approved the selection committee's shortlist on April 21, 2025 and authorized City staff to enter contract negotiations with the top ranked firm, Wright-Pierce. Staff has successfully negotiated the attached Agreement with Wright-Pierce. Wright-Pierce's services under the Agreement will include the review of contractor submittals, monitoring of construction progress and the conformance of construction to the final engineered design plans, review of pay applications, and verification of the contractor's compliance with American Rescue Plan Act (ARPA) and State Revolving Fund (SRF) funding requirements, among other necessary tasks.

Wright-Pierce will perform the requested services in accordance with the terms and conditions of the Agreement and RFQ 2025-RFQ-006 at the hourly rates specified in the Agreement. Based on expected levels of service, the anticipated construction schedule and construction scope, the time and materials estimate for Wright-Pierce's services is $2,680,241. Funding has been approved within the Water Utilities FY25 budget. Work will commence immediately and is expected to last 25 months. It is recommended that the City Commission approve the attached Agreement with Wright-Pierce, Inc. for Resident Project Representative Services for the Western Trunk Sewer Upgrades Project and authorize the appropriate City officials to execute the Agreement.

Motion: Commissioner Chad McLeod moved to approve the recommendation. Commissioner Sara Roberts McCarley seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments.

Action: Mayor Bill Mutz called for the vote and the motion carried unanimously.

***Amendment One to Local Government Comprehensive Planning Certification Program Agreement**

This was proposed Amendment One to Lakeland's Local Government Comprehensive Planning Certification Program Agreement. Pursuant to this Amendment, the City and the Florida Department of Commerce agree to amend the Local Government Comprehensive Planning Certification Program Agreement between the parties to incorporate the areas annexed into the City of Lakeland during the past year. All other terms and conditions of the Agreement will otherwise remain in full force and effect.

Staff recommended that the City Commission approve the Amendment One to Local Government Comprehensive Planning Certification Program Agreement between the City of Lakeland and the Florida Department of Commerce and authorize the appropriate City officials to execute the Amendment.

Action: The Commission approved this item as part of the Consent Agenda.

***Agreement for Annual Waste Disposal Services for Lakeland Electric Power Plants**

This proposed Agreement was for industrial waste disposal services at the McIntosh, Winston and Larson Power Plants which generate both hazardous and non-hazardous waste that must be disposed of in accordance with Florida Department of Environmental Protection and U.S. Environmental Protection Agency regulations.

Accordingly, on December 12, 2024, the City's Purchasing Department issued Invitation to Bid 2024-ITB-348 (ITB) seeking qualified vendors to load, transport and dispose of various waste materials at the City's McIntosh, Larson and Winston Power Plants. The services also include the transport and disposal of liquid waste streams, such as used oil, that result in a repurchase value for the City in which the vendors are required to pay the City a per gallon fee for such waste that is picked up. A total of nine (9) companies responded to the City's ITB.

Contractor	Location
Alpha-Omega Training and Compliance, Inc.	Titusville, FL
A-C-T Environmental & Infrastructure, Inc.	Bartow, FL
Clean Solutions Environmental, LLC	Tampa, FL
Cliff Berry, Inc.	Ft. Lauderdale, FL
Enviroserve, Inc.	Melbourne, FL
Hull's Environmental Services, Inc.	Panama City, FL
Republic Services, Inc.	Tampa, FL
Safety-Kleen Systems, Inc.	Norwell, MA
Triumvirate Environmental Services, LLC	Somerville, FL

Upon evaluation by Lakeland Electric staff, the following four (4) vendors were selected as responsive, responsible bidders capable of providing the necessary services at competitive prices based on bid pricing inclusive of transportation and disposal, as well as the proposed fee paid to the City for waste streams with repurchase value: AlphaOmega Training and Compliance; Clean Solutions Environmental, LLC; Cliff Berry, Inc.; and Safety-Kleen Systems, Inc. By selecting multiple vendors for this service, the City can secure competitive rates and obtain services based on availability of the vendors on an as needed basis. The initial term of the Agreement will become effective upon approval by the City Commission and continue through September 30, 2025. The Agreement also contains four (4) additional one (1) year renewal options upon mutual written agreement of the parties. All services will be performed in accordance with the terms and conditions contained in the City's Bid Specifications and each vendor's bid response. The estimated cost of the services through September 2025 is $60,000, which is included in Lakeland Electric's FY25 budget. The estimated cost for the additional four (4) renewals, if exercised, is $100,000 for a total cost of $160,000 over a five (5) year period, which will be subject to budget approval by the City Commission in subsequent budget years.

Staff recommended that the City Commission approve Agreements with AlphaOmega Training and Compliance, Inc., Clean Solutions Environmental, LLC, Cliff Berry, Inc., and Safety-Kleen Systems, Inc. for industrial waste disposal services at McIntosh, Winston and Larson Power Plants and authorize the appropriate City staff to execute all corresponding documents related to the Agreements.

Action: The Commission approved this item as part of the Consent Agenda.

Agreement with Siemens Energy, Inc. for Purchase and Installation of an Upgrade to the T3000 Distributed Control System for McIntosh Gas Turbine 2

This is a proposed Agreement with Siemens Energy, Inc. (Siemens) for the purchase and installation of an upgrade to the T3000 Distributed Control System for McIntosh Gas Turbine 2 (MGT2). The current T3000 Distributed Control System, comprised of hardware and software, which was installed in 2019, is now at end of its useful life and can no longer be supported for software patching and security updates. Lakeland Electric is dependent on the proper operation of such an integrated system to maintain the overall reliability, operability and security of MGT2.

The City's Purchasing Department has approved Siemens as a sole source vendor since Siemens is the Original Equipment Manufacturer of the T3000 Distributed Control System and therefore the only qualified vendor to provide this upgrade to equipment and software. Pursuant to the Agreement, Siemens will provide the hardware, software, installation and training for the new upgraded system. The upgrade will not only enable Lakeland Electric to maintain MGT2 but will also help prevent costly forced outages due to potential control-system faults.

Upon approval by the City Commission, the City will issue a purchase order for implementation of the new hardware and software to be installed during the Spring 2026 scheduled outage planned for February 2026. The Agreement will be governed by Siemens' Proposal dated April 18, 2025, as well as the negotiated terms and conditions set forth in Siemens Energy Selling Policy 1270 dated August 8, 2013. The total cost of the upgrade is $734,000, which is included in Lakeland Electric's FY25 budget and proposed FY26 budget.

Staff recommended that the City Commission approve this Agreement with Siemens for the upgrade of MGT2's T3000 Distributed Control System and authorize the appropriate

City officials to issue a purchase order and execute all corresponding documents related to the purchase on behalf of the City.

Deputy City Attorney Ramona Sirianni presented this item.

Motion: Commissioner Sara Roberts McCarley moved to approve the recommendation. Commissioner Mike Musick seconded.

Mayor Bill Mutz asked for comments from the Commission and the audience. There were no comments.

Action: Mayor Bill Mutz called for the vote and the motion carried unanimously.

AUDIENCE

Jo Shim thanked the Commissioners who attended the event at Florida Southern College (FSC) on April 16th. She thanked those commissioners for being there and supporting the students. She hoped it would be the beginning of a positive campaign season before the November election. Secondly, thank you for the generous policy allowing public comment. She appreciated the ability to participate in the process. She hoped that policy remained

Raydene Read came forward about a noise disturbance near her home. Saturday night at 2 a.m. there was noise coming from a bar down at the old Sears Town. It was the patrons in the parking lot. The police officer said there was not really anything she could do except drive around the parking lot with her lights on. The officer told her to call the City Commission. She was the third call about the noise.

The Commission discussed noise disturbances and how they are resolved.

Palmer Davis explained the City's ordinance is based on a reasonable person standard. Our ordinance has been upheld in court. There is a state statute on motor vehicle sound. The challenge with that is that they are in motion and the officer is not usually there to observe it.

The Commission discussed:
- The police being more aggressive with noise complaints.
- Community policing and human interaction
- How to remind folks about the City's standards for noise in the community.
- The need for an intolerance for loud noise interruptions.

MAYOR AND MEMBERS OF THE CITY COMMISSION

Commissioner Stephanie Madden was unable to attend Utility Committee on Friday. She hoped that the Utility Committee members and the Commissioners are sober about Lakeland Electric's position at the State level. She hoped they heard about the move to cleaner generation. Florida is now an 85% natural gas state. LE did not eliminate the coal plant just for cleaner energy but also because it was getting to the end of its life cycle. We knew that we would have to replace the base load generation. The RICE, Calpine, and solar power are ~~now~~ not[1] base load. If the whole pool runs low on capacity, we are all in trouble. We planned for purchase power until we could make the next big investment. If the Florida Municipal Power Association (FMPA) is no longer in the power pool, we do not have capacity. It is incumbent upon us to know what is going to be the generational mix for LE and the State of Florida. Everyone around the globe is going to be grappling with the base load situation. She wanted the Commission to hear the urgency of the situation. We all need to be paying attention.

Mayor Bill Mutz thought that message was communicated in the Utility Committee meeting.

CALL FOR ADJOURNMENT - 10:51 a.m.

Kelly S. Koos, City Clerk

[1] Commissioner Stephanie Madden corrected these minutes after the May 19, 2025 Commission meeting.
